

CK-60 F

CK-40 F

CK-25 N

Centrifugal extractors manufactured from flame retardant plastic V0. All extractors are class II insulation fitted with centrifugal impeller and single phase 230V-50Hz speed controllable motor. This range consists of three models with airflow ranging up to 625 m³/h.

Stainless steel filter

Fitted to the inlet to prevent the build-up of grease within the fan and ducting enclosure (CK-40F and CK-60F).

Protection guard

To avoid any contact with the impeller (CK-25N).

Removable grease collection tray

To collect the grease. Easily removable for cleaning.

CK-60F: 2-speed motor

REGUL-2 speed selector I/II switch to adapt the extract air volume to the needs.

Extractors can be dismantle

Extractor parts easily removable for cleaning in the dishwasher. (At maximum temperature 60°C)

TECHNICAL CHARACTERISTICS

Model	Speed (rpm)	Abs. power at free discharge (W)	Voltage (V) 50 Hz	Airflow at free discharge (m³/h)	Sound pressure level* (dB(A))	Weight (kg)	Wiring diagram** (n°)
CK-25 N	2250	40	230	250	50	1,9	11
CK-40 F	2350	70	230	360	55	2,7	11
CK-60 F VR	HS	2475	230	625	59	4,7	9
	LS	1740		415	54		

* Sound pressure level measured at 1,5 m at free air conditions.

** See section of Wiring Diagrams.

DIMENSIONS (mm)

Model	ØA	B	C	D	E	F	G
CK-25 N	98	34	304	149	218	-	127
CK-40 F	98	42	370	179	266	140	162
CK-60 F	116,5	42	410	180	293,5	145	174

To obtain the maximum efficiency of the polluted air extraction, the K series fans should be installed within a cooker canopy. The airflow required depends upon the canopy width and the distance between the canopy and the cooker. The K series fans should be installed in vertical position with the grease collection tray at the bottom.

CK KITCHEN EXHAUST FAN KITS

CK PLASTIC RANGE

Are fitted with all the elements (extractor and accessories) needed to carry out a successful installation.

Kit CK-40 F
Includes:
 1 CK-40F fan
 3 m of GSA-100 flexible aluminium ducting
 2 duct connectors CX-80/125
 1 backdraft shutter CM-130

Kit CK-60 F
Includes:
 1 CK-60F fan
 3 m of GSA-125 flexible duct
 2 duct connectors CX-125/215
 1 backdraft shutter CM-130
 1 two speed switch REGUL-2

ECO-500

CK-50

CK-35 N

Centrifugal extractors manufactured from sheet steel with an epoxy polyester paint finished. All extractors are fitted with centrifugal impeller and single phase 230V-50Hz speed controllable motor. This range consists of three models with airflow ranging up to 480 m³/h.

Stainless steel filter

To avoid any contact with the impeller.

Protection guard

To avoid any contact with the impeller.

Removable grease collection tray

To collect the grease. Easily removable for cleaning.
