

Diathermal oil cooler with high thermal inertia, which allows keeping the accumulated heat for a longer time. It takes up little space, ideal to place under tables or in small rooms.

Characteristics

1 power position and pilot light.
Dual security system, with anti-tipper switch and thermal protection for overheating.
It consumes no oxygen and it does not dry the environment up.

Carrying handle.

Power selector and adjustable automatic thermostat.
Pilot light.

TECHNICAL CHARACTERISTICS

Model	Voltage 50/60 Hz (V)	Maximum power (W)	Maximum absorbed current (A)	Nº of fins	Area of influence* (m ²)	Colour	Weight (kg)	Dimensions LxWxH (mm)
SAHARA-603	230	600	2,6	7	4	Grey	4,4	330x170x355
SAHARA-903	230	900	4	9	5	Grey	5,9	400x170x355

* For rooms of 3 m height.
