

Characteristics

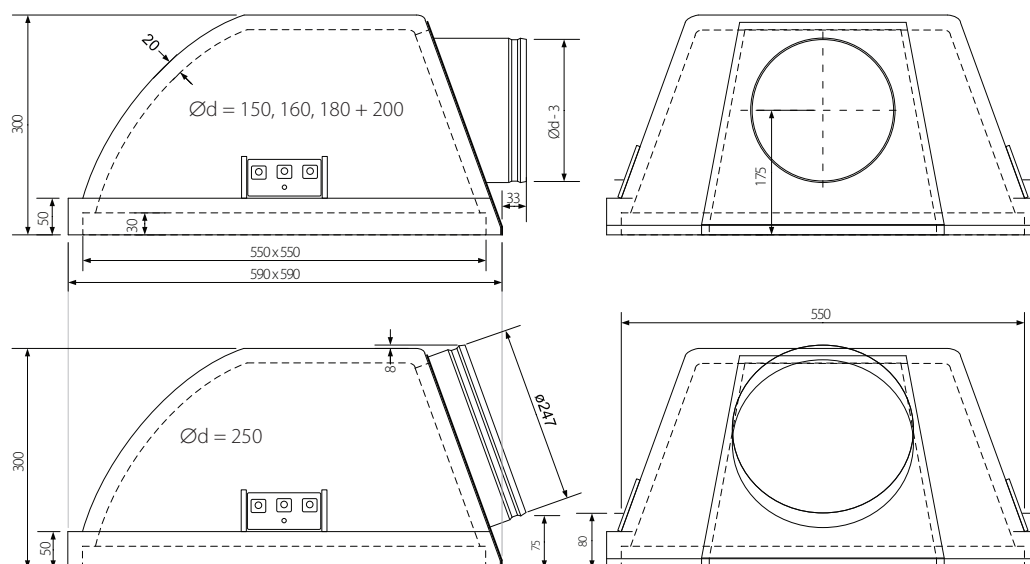

Light weight thermal insulated plenum.
Inlet diameters (Ø): 150, 160, 180, 200 and 250 mm.
Fire rated "Self Extinguishing" Class-1, DIN4102.
Thermal insulated ($\lambda = 0.033 \text{ W/m.K}$).
Light weight (total < 1.5 kg).
Assembly in < 60 seconds.

Construction

Housing: expanded polystyrene.
Inlet: galvanised steel.

Accessories

Balancing damper (galvanised steel).

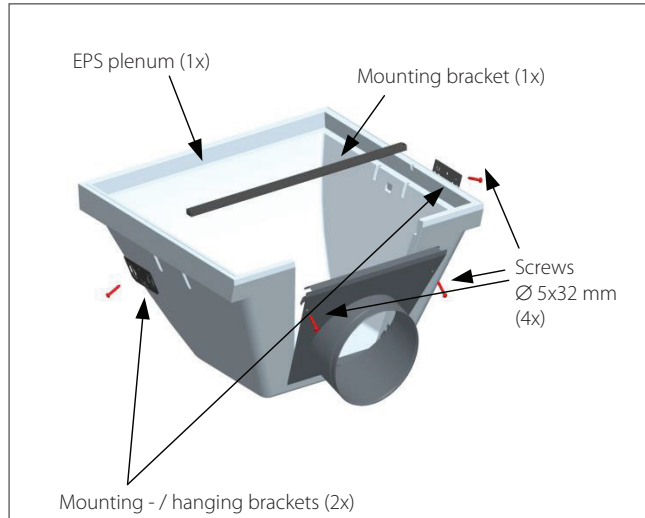

KK-EPS-Ød	KK-EPS-M-Ød	KK-EPS-48-Ød
Plenum + Ø inlet + centre bracket + hanging brackets	Balancing damper Fitted in Ø inlet	1 pallet 120 x 80 x 220 cm 48x plenums 48x Centre bracket + screws 48x hanging brackets (2x)

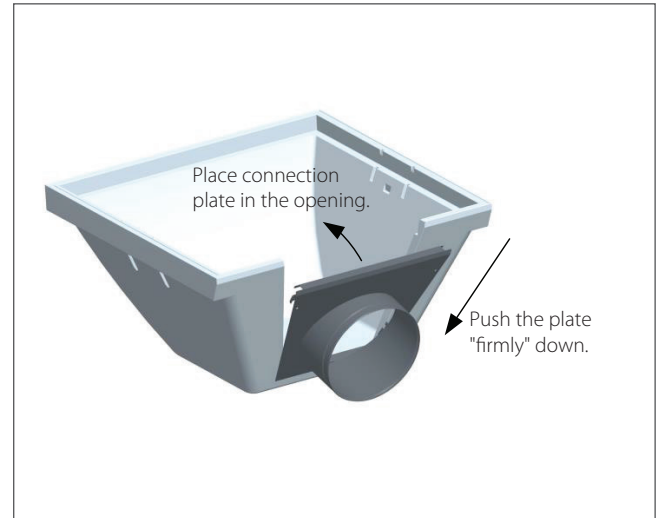

Mounting instructions

Fire Class : DIN-4102-B1 and EN-ISO 13501-1-E (fire-resistant, flame-retardant)

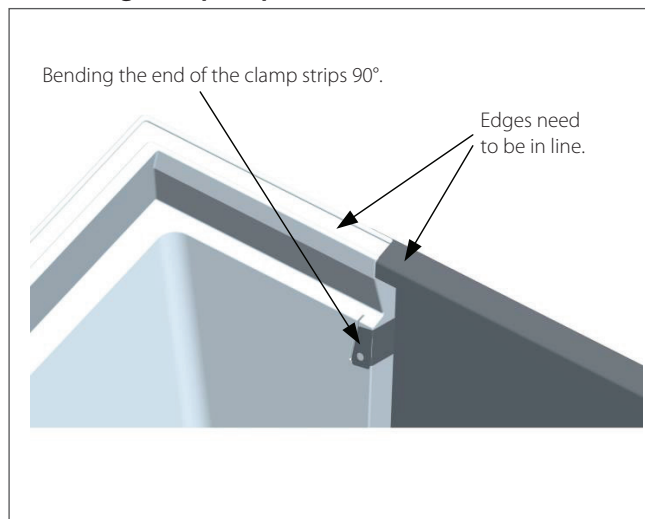

1. Content of package

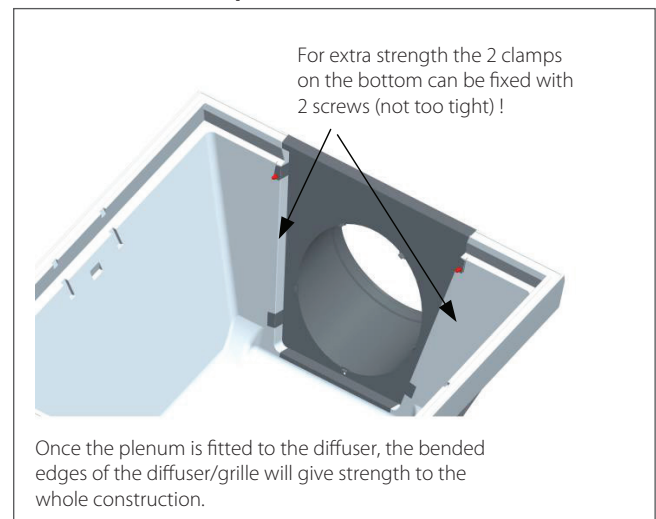

2. Mounting of round connection

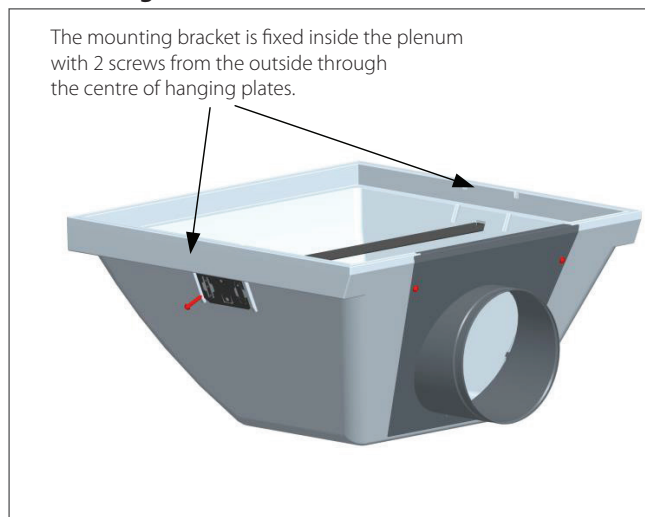

3. Bending clamp strips

4. Fixation of clamps

5. Mounting bracket with centre screw M6

6. Plenum is ready to be fitted on the diffuser
